Tre generazioni un'unica idea di design.

Three Generations one and only Idea of Design.

Our Company

Nel 1982 Ottavio Zennaro e il figlio Marino fondano Mariner Rubinetterie con l'obiettivo di creare un'azienda italiana ad elevato contenuto tecnologico che legasse tradizione, artigianalità e ricerca.

Gli anni '90 vedono il consolidamento di una realtà industriale che va affermandosi e ritagliandosi un importante ruolo nel settore della rubinetteria di design e nella termostatica. Alla prima sede produttiva di Omegna (VB), segue un ampliamento con spostamento a Briga Novarese (NO).

Dalla fine degli anni '90, grazie alla partecipazione alle principali fiere di settore di tutto il mondo, Mariner Rubinetterie diventa simbolo di eleganza e qualità. La costante crescita porta l'azienda ad investire nella costruzione della nuova e attuale sede di Gravellona Toce (VB) e nell'acquisto di macchinari all'avanguardia.

Il secondo decennio del nuovo millennio vede fare il suo ingresso in azienda la terza generazione. Con Riccardo Zennaro il rinnovamento aziendale si avvia quindi definitivamente verso l'implementazione di pratiche e materiali responsabili ed allo sviluppo di nuove collezioni di design.

In 1982, Ottavio Zennaro and his son Marino established Mariner Rubinetterie to create an Italian company with significant technological content, blending together tradition, craftsmanship and research.

The 1990s saw the consolidation of an industrial reality that positioned itself prominently in the field of designer taps, fittings and thermostatics. The first production site in Omegna (VB) was followed by an expansion with a move to Briga Novarese (NO).

Since the end of the 1990s, Mariner Rubinetterie has become a symbol of elegance and quality thanks to its participation in major trade fairs worldwide. The constant growth led the company to invest in the construction of the new and current headquarters in Gravellona Toce (VB) and the purchase of new innovative machinery.

The second decade of the new millennium sees the third generation join the company. With Riccardo Zennaro, the company's renewal then moves definitively towards the implementation of responsible practices and materials and the development of new design collections.

La nostra azienda perché scegliere Mariner.

Our Company: why Mariner?

Ciò che contraddistingue Mariner Rubinetterie è l'approccio olistico dell'azienda alla proprie priorità strategiche.

Un concetto che non si traduce solo nella ricerca di rilevanza e riconoscimento internazionale, ma anche nella creazione di un ampio bacino di clienti domestici, in un'ottica che vede il mercato italiano come banco di prova per tutti i nuovi prodotti di design.

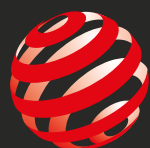

What distinguishes Mariner Rubinetterie is the holistic approach of the company towards its strategic priorities.

A concept that does not result only in the research of importance and international recognition but also in the creation of a large reservoir of domestic clients, with a view that sees the Italian market as a test bench for all the new products design.

Riconoscimenti, premi e certificazioni d'eccellenza.

Our Cause for Celebration.

red**dot** winner 2021

Awards

Nata da una scelta concettuale unica che mira a combinare linee fluide e materiali raffinati, Kobra si presenta in una gamma di finiture, dal Grafite al Matte Black, che si adatta ai contesti contemporanei di più squisita fattura.

Questa pluripremiata collezione affascina con la sua commistione di tagli puliti e funzionalità estrema, eredità stilistica vintage e appeal innovativo.

Kobra colpisce per il suo design distintivo, perfettamente complementare allo stile dei bagni moderni. Allo stesso tempo, il miscelatore lavabo è funzionale e ben congegnato.

Con questa motivazione, la giuria dei Red Dot Awards ha assegnato alla collezione Kobra un premio nella categoria In-house design.

Born out of a unique conceptual choice to combine flowing lines and refined materials, Kobra comes in a range of finishes, from Graphite to Matte Black, to suit the most exquisitely crafted contemporary settings. This award-winning collection captivates with its blend of clean cuts and extreme functionality, vintage stylistic heritage and innovative appeal.

Kobra impresses with its distinctive design, perfectly complementing the style of modern bathrooms. At the same time, the basin mixer is functional and well thought-out.

With this motivation, the jury of the Red Dot Awards gave the Kobra collection an award in the In-house design category.

Sostenibilità Impegno mirato a ridurre l'impronta ecologica.

Responsible Faucets for a Responsible Lifestyle.

Risparmio idrico.

Ci siamo mossi già da tempo per assecondare le necessità della transizione ecologica. Per questo tutti i nostri miscelatori lavabo, bidet e le varie bocche da incasso montano di serie aeratori con limitatore di portata a 5,7 l/m. I soffioni invece hanno limitatore da 9 l/m, per un controllo degli sprechi idrici preciso e in linea con le norme internazionali.

Energia.

Da anni utilizziamo energia proveniente da fonti rinnovabili, prevalentemente quella delle vicine centrali idroelettriche alpine, e ci sforziamo per ridurre, ove possibile, l'emissione di CO2 prodotta dai nostri impianti e dalla lavorazione del prodotto commercializzato, sia a livello di magazzino che di vendita e promozione.

Collaborazioni e partnership.

Negli ultimi anni, abbiamo compiuto un ulteriore passo in avanti sul versante della sostenibilità e del contrasto ai cambiamenti climatici, attivando collaborazioni e partnership con realtà impegnate attivamente su questi temi.

Water-Saving Technology.

Our company has long moved to anticipate the needs of the current ecological transition, bringing the entire production into the new millennium with the ultimate goal of limiting the excessive exploitation of natural resources. All our basin mixers, bidets and various spouts for concealed installation have standard aerators with a flow limiter of up to 5.7 l/m. Our showerheads instead have a limiter of up to 9 l/m, allowing for meticulous control of water waste for as much as possible in line with international standards.

Energy.

Since the foundation of the company, we have been using energy coming from renewable sources, mainly that of the nearby alpine hydroelectric plants. At the same time, we've also strived to reduce, where possible, how much CO2 is released by our production, making it more efficient and less polluting. To check every step of the process is optimized, we also analyse the supply and marketing of the product, both at the warehouse level and at the sales and promotion stages of the same.

Collaborations and partnerships.

In recent years, we have taken a further step towards sustainability and combating climate change by setting up collaborations and partnerships with entities actively engaged in these issues.

Località; il nostro territorio, la nostra impronta.

**Embrace Mariner, Safeguard our
Environment.**

Our Place

Saldamente ancorata nel distretto dei laghi alpini piemontesi, Mariner Rubinetterie è un'azienda fondata sul rispetto dell'ambiente e la riduzione degli sprechi.

La nostra produzione si distingue nel panorama locale per l'importanza data alle energie rinnovabili, alla green economy e al re-investimento diretto sul territorio, oltre che per la sponsorizzazione di alcune attività locali d'eccellenza.

Firmly anchored in Piedmont's Lake District, Mariner Rubinetterie is a company founded on respecting and protecting the environment with the production of ecofriendly faucets and showers. Aimed at cutting waste and increase energy efficiency, Mariner's production stands out from the local landscape for the importance given to promote renewable sources, sustain the local economy and invest directly into making our territory less carbon dependent and more energy-efficient.

Finiture, la sfumatura giusta.

Our Finishes: Choose your Colour.

Le nuove collezioni di Mariner Rubinetterie sono proposte in un'ampia e varia gamma di finiture con altissimo valore estetico e comprovata qualità materiale. Originali, personalizzabili e facilmente inseribili in ambienti eterogenei, le nostre finiture spaziano dal bianco al nero, passando per varie tonalità di oro e alcune particolari lavorazioni e sfumature.

Finishes

Our new collections are proposed in a wide range of finishes with high aesthetic value and proven material quality. Original, elegant and suitable for heterogeneous environments, our finishes range from white to black, through various shades of gold and some special finishes. We have a complete set of polished, brushed and satin finishes, making up a vast array of options that is not too extensive nor too limited, leaving enough room for creativity without compromising quality and functionality.

Indicazione profondità impianto
Built-in depth indication

Un sistema di guarnizioni permettono la tenuta stagna della scatola, in caso di perdita l'acqua non entra a contatto con la muratura, ma esce da un'apertura alla base della piastra.

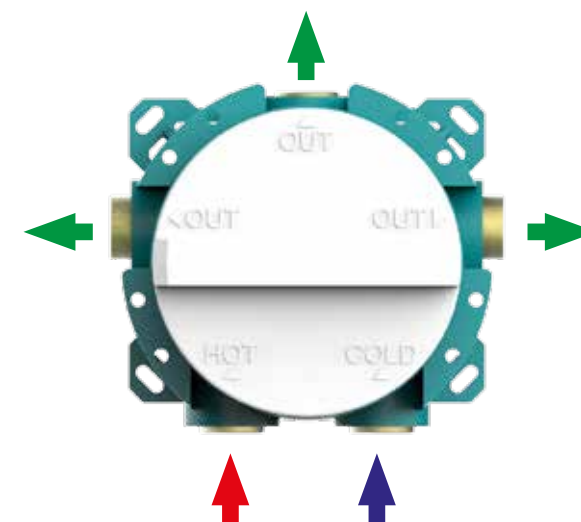

Durante la realizzazione dell'impianto si ha la possibilità di eseguire i test necessari e successivamente è possibile far spurgare l'impianto dalle eventuali impurità dovute ai lavori di realizzazione.

In caso di successivi interventi è possibile accedere al corpo miscelatore senza dover intervenire sulla muratura.

A system of gaskets allows the box to be watertight, in the event of a leak the water does not come into contact with the masonry, but comes out through an opening at the base of the plate.

During the construction of the system, it is possible to carry out the necessary tests and subsequently it is possible to have the system purged of any impurities due to the construction works.

In the event of subsequent interventions, it is possible to access the mixer body without having to intervene on the masonry.

1. Incassare la scatola nel muro - Place the box in the wall
2. Intonacare la parete - Plaster the wall
3. Applicare la guaina impermeabilizzante - Put the waterproof sheath
4. Piastrellare - Put the tiles

- Testare l'impianto - tagliare la plastica in eccesso - sigillare il bordo con il silicone
- Test the pipes - trim the box - silicon all around
- Rimuovere il tappo
- Remove the cap

- Inserire il modulo miscelatore - inserire la guarnizione
- Place the mixer module - place the box sealant gasket
- Montare la piastra di tenuta, fissare con le viti in dotazione
- Mount the sealing plate, fix it with the screws

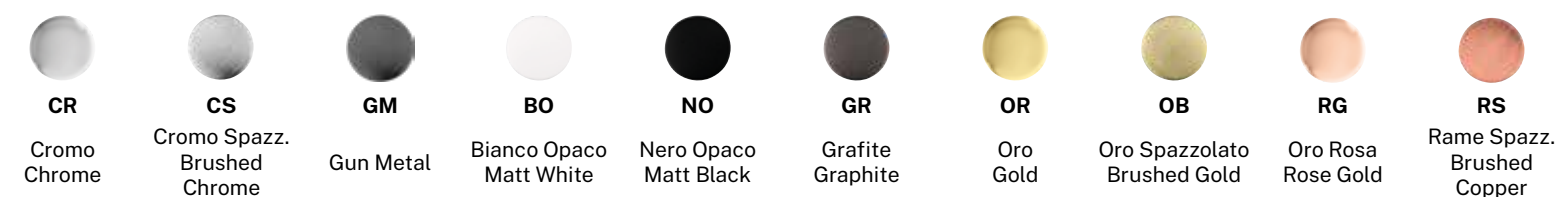

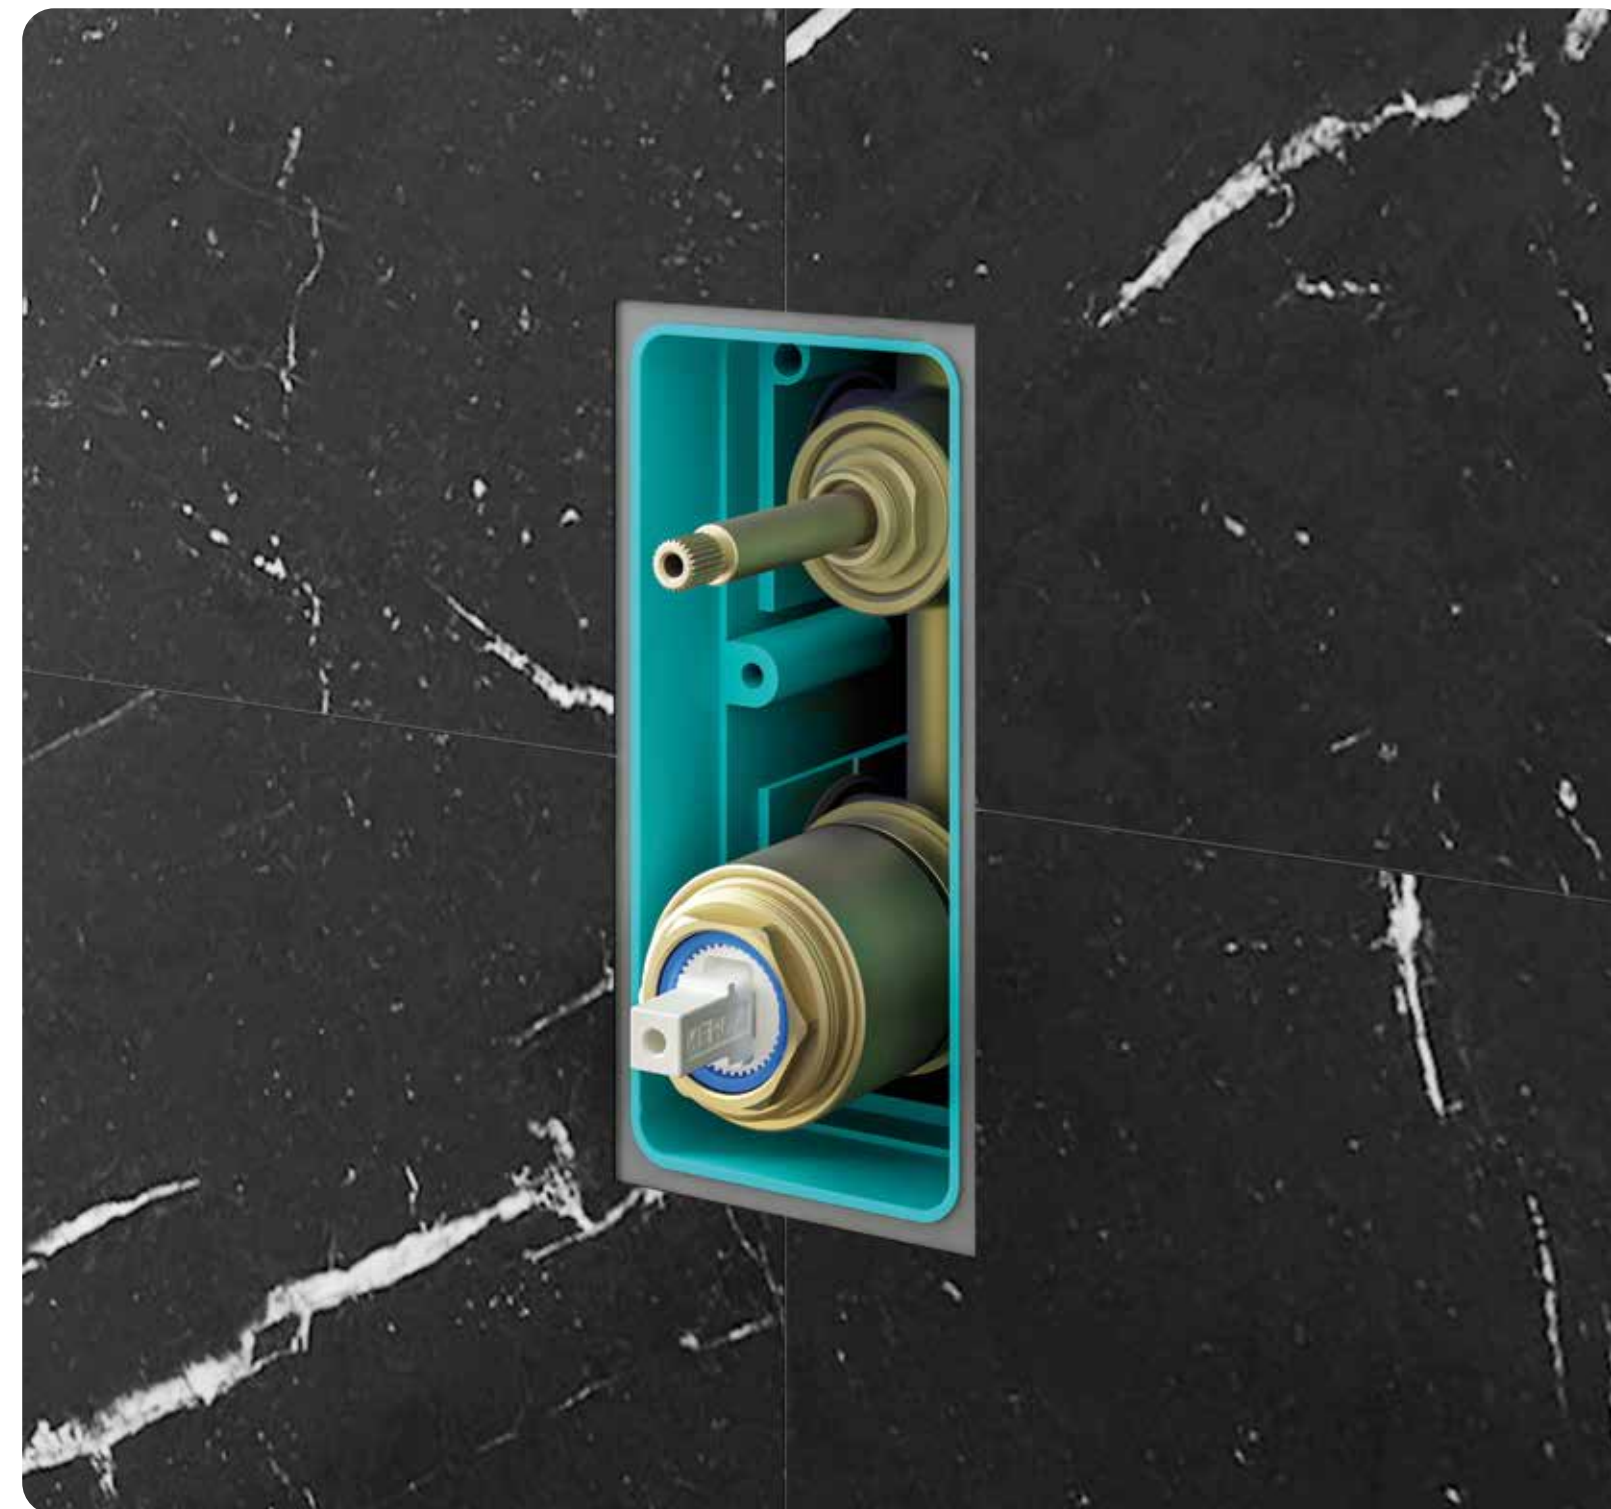

- Montare la piastra, e tutti i componenti in finitura.
- Mount the plate and other finishing details.

Safe & functional,
our Built-in Box for concealed
installation.

M Handy Box

Linee guida per l'installazione:

I componenti ad incasso sono le parti meccaniche, che sono uguali per ogni gamma e finitura scelta. Le parti esposte possono essere montate successivamente, consentendo la sostituzione della piastra e della leva senza ulteriori lavori di costruzione.

Personalizzabile in qualsiasi momento secondo il proprio stile.

Installation Guidelines:

The components installed and concealed in the wall are just the mechanical parts, which are the same for every range and finish chosen. The exposed parts can be mounted later, allowing for the substitution of the plate and lever with no need for other construction works.

Personalisable at any time in accordance with your tastes and style.

Logica Inox.

Perfect geometries in brushed Stainless Steel.

Logica Inox

Il design minimalista cilindrico della Logica si concretizza nella collezione Logica Inox, dove le forme pure generate da geometrie semplici sono realizzate in acciaio inossidabile spazzolato.

Logica Inox esprime purezza, leggerezza e precisione e grazie all'acciaio l'essenzialità della forma si unisce alla valenza qualitativa del contenuto.

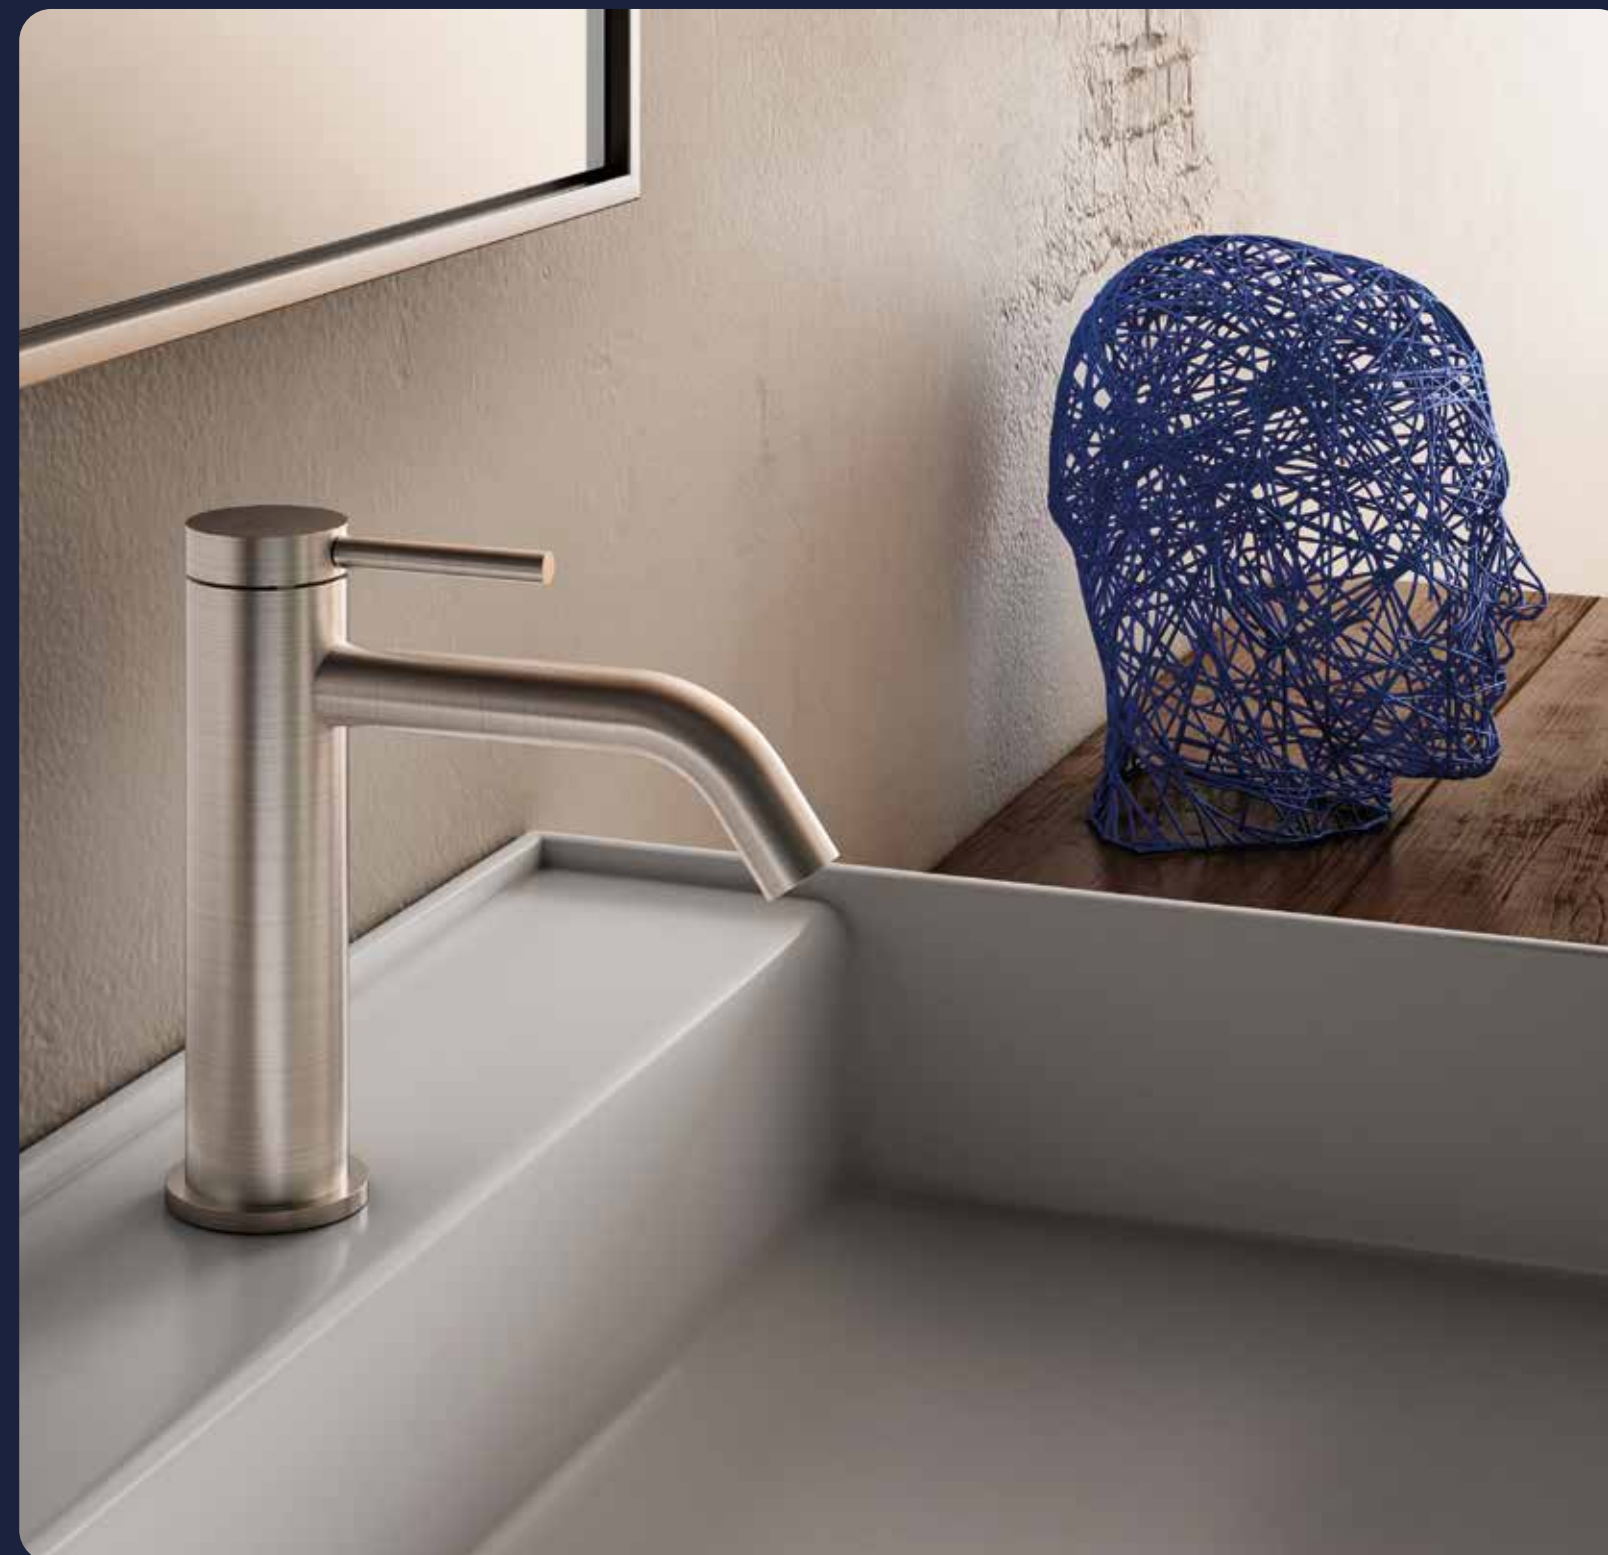

The minimalist cylindrical design of Logica takes concrete form in Logica Inox, a collection where pure geometrical forms meet stainless steel's endless durability.

LOGICA INOX has been conceived and manufactured to convey an idea of purity, lightness and cutting-edge precision. Stainless steel complements this idea with the perfect refining touches, enhancing essentiality in the shapes with high-quality material choice.

Logica Shine. Precious decorative elements for an innovative look.

Logica Shine

Dalla combinazione di un appeal minimal di Logica con il design della nuova leva zigrinata, nasce la linea Logica Shine di Mariner.

La maniglia, di nuova concezione, si ispira ai gioielli moderni e reinterpreta il concetto di rubinetto, attraverso un gioco di luci e riflessi.

LOGICA SHINE

The combination of Logica's minimalist appeal with the design of the new knurled handle gives rise to Mariner's Logica Shine line.

The newly designed handle is inspired by modern jewellery and reinterprets the bathroom concept through a play on lights and reflections.

Logica. Naturally shaped by flowing water.

Logica

Qui tutto è in perfetta sintonia, la proporzione assoluta tra le parti si libera degli eccessi e segue una coerenza formale nel cilindro di Logica.

Il risultato è una linearità a livello estetico che dona a Logica tratti minimalistici puliti, che contribuiscono a dare alla serie un carattere incisivo, apparentemente plasmato dallo scorrere incessante dell'acqua.

LOGICA

Every component of Logica's taps and mixers was designed to be in complete harmony with the others. With absolute proportion and lines devoid of excesses, the formal coherence of Logica's cylinder stands up from the other collections.

The resulting aesthetic linearity gives Logica a clean, minimalist look and an incisive character, making it seems as if it was shaped by running water.

Kobra.

A natural solution for an exclusive context.

Kobra

La pluri-premiata Kobra, vincitrice del Red Dot Design Award e del German Design Awards 2023, è testimone del nostro duro lavoro.

Uno sforzo costante, che facciamo per integrare uno stile all'avanguardia nella tradizione di eccellenza Made in Italy.

KOBRA

reddot winner 2021

The multi-award-winning Kobra, acclaimed of the Red Dot Design Award and the German Design Awards 2023, is a testament to our hard work.

A constant effort we make to integrate cutting-edge style into the tradition of Made in Italy excellence.

Arya. A breeze of revolution.

Arya

Tendenze architettoniche moderne danno forma Arya, creata per unire elementi morbidi e dettagli rotondi.

Equilibrio ottimale tra funzionalità e design dove le forme si adattano perfettamente ad un'ambiente dal design contemporaneo al servizio del vostro comfort.

ARYA

Modern architectural trends shape Arya, created to combine soft elements and round details.

Optimum balance between functionality and design where shapes fit perfectly in a contemporary design environment at the service of your comfort.

Otto.

Defining functionality.

Otto

Abbiamo scelto un design semplice, versatile e geometricamente equilibrato per la collezione Otto, esaltando una linea di rubinetto asciutta e pulita.

Otto è sintesi perfetta tra forma e funzione, design e innovazione, per abbinarsi ad un'ampia varietà di contesti eleganti ed attuali.

OTTO

We have opted for a simple, versatile, geometrically balanced design for the Otto collection, enhancing and clean faucet line.

Otto is the perfect synthesis of form and function, design and innovation, to match a wide variety of elegant and contemporary contexts.

Otto

QUADRA.

The apex of essentiality.

Quadra

Ci siamo ispirati alle forme primarie ed essenziali creando Quadra, una collezione che evoca uno stile duraturo e all'avanguardia.

Rigorosità e razionalità caratterizzano un magnifico bilanciamento delle linee taglienti e accattivanti, una serie capace di inserirsi in maniera naturale nei contesti bagno più moderni con uno sguardo verso il futuro.

QUADRA

We have been inspired by primary and essential forms to create Quadra, a collection that evokes an enduring and avant-garde style.

Rigour and rationality characterise a magnificent balance of sharp and captivating lines, a series capable of fitting naturally into the most modern bathroom contexts with an eye to the future.

Tao. Balancing Energies.

Tao

Nuova, affascinante ed aggressiva serie Tao esprime la volontà di dar vita a nuove tendenze, ispirandosi alle più attuali richieste del mercato.

Linee accentuate e tagli più arrotondati si bilanciano perfettamente per rendere questa linea esclusiva ed universale inserendosi perfettamente negli ambienti più ricercati.

The new, charming and aggressive Tao series expresses the desire to bring new trends to life, inspired by the latest market demands.

Accentuated lines and more rounded cuts are perfectly balanced to make this line exclusive and universal, fitting perfectly into the most sought-after environments.

Tao

Tao Ecosafe

Tao, con la sua cartuccia ECOSAFE con apertura a freddo, elimina il problema dell'accensione inutile della caldaia, per un risparmio energetico di oltre il 30% rispetto alle cartucce tradizionali!

Tao, with its cold-opening ECOSAFE cartridge, eliminates the eventuality of unnecessary ignitions of the boiler, for energy savings of up to 30% compared to traditional cartridges!

Bocche - Spouts.

Talking about elegance.

Spout

Per dare nuove forme all'acqua, le nostre bocche uniscono estetiche sensazionali ad oggetti funzionali per tutte le tipologie di ambienti, sia pubblici che privati.

New water forms, sensational aesthetics and functional products for all types of environments this and more are our bathroom spouts and waterfalls.

Termostatici. Thermostatic mixers.

Eden

I termostatici Mariner Rubinetterie, dall'elevata componente tecnologica, non solo miscelano l'acqua calda e fredda in base della temperatura desiderata, ma garantiscono anche un notevole risparmio idrico, economico ed energetico, a beneficio di tutta la famiglia.

TERMOSTATICI
THERMOSTATIC MIXERS

Mariner Rubinetterie's thermostatic mixers are highly technological and secure. Not only do they automatically adjust the inflow of hot and cold water at the desired temperature, but also guarantee significant water, energy and economic savings, decreasing your impact on the environment.

Colonne doccia. Shower columns.

Shower Columns

Complete di soffione, flessibile e shower kit, le colonne doccia di Mariner si differenziano per la vasta selezione di stili e colori personalizzabili a catalogo. Colonne doccia quadrate, tonde e ad arco si accompagnano ai diversi tipi di saliscendi disponibili in finitura, da quello più compatto a quello con una linea più slanciata.

In questa gamma di articoli, si susseguono opzioni di colore e stile eterogenee, a volte spiccatamente moderne e a volte più tradizionali, che integrano soluzioni originali e dall'accentuato valore estetico alle ultime novità tecnologiche, riuscendo con il loro design minimalista ad impreziosire, senza appesantire né banalizzare, l'ambiente.

COLONNE - COLUMNS

Complete with showerhead, hose and shower kit, Mariner shower columns stand out for the wide selection of styles and colours, being 100% customizable. Square, round and arched shower columns accompany the different types of sliding rails available in finish, from compact to more slender ones.

In this range of articles, there are heterogeneous colour and style options, sometimes distinctly modern and sometimes more traditional, which integrate original solutions with an accentuated aesthetic value and the latest technological innovations. This combination of factors makes Mariner Shower Columns and Sliding Rails able to fully make use of their minimalist design to embellish, without burdening or trivializing any setting.

Soffioni molla. Spring installation showerheads.

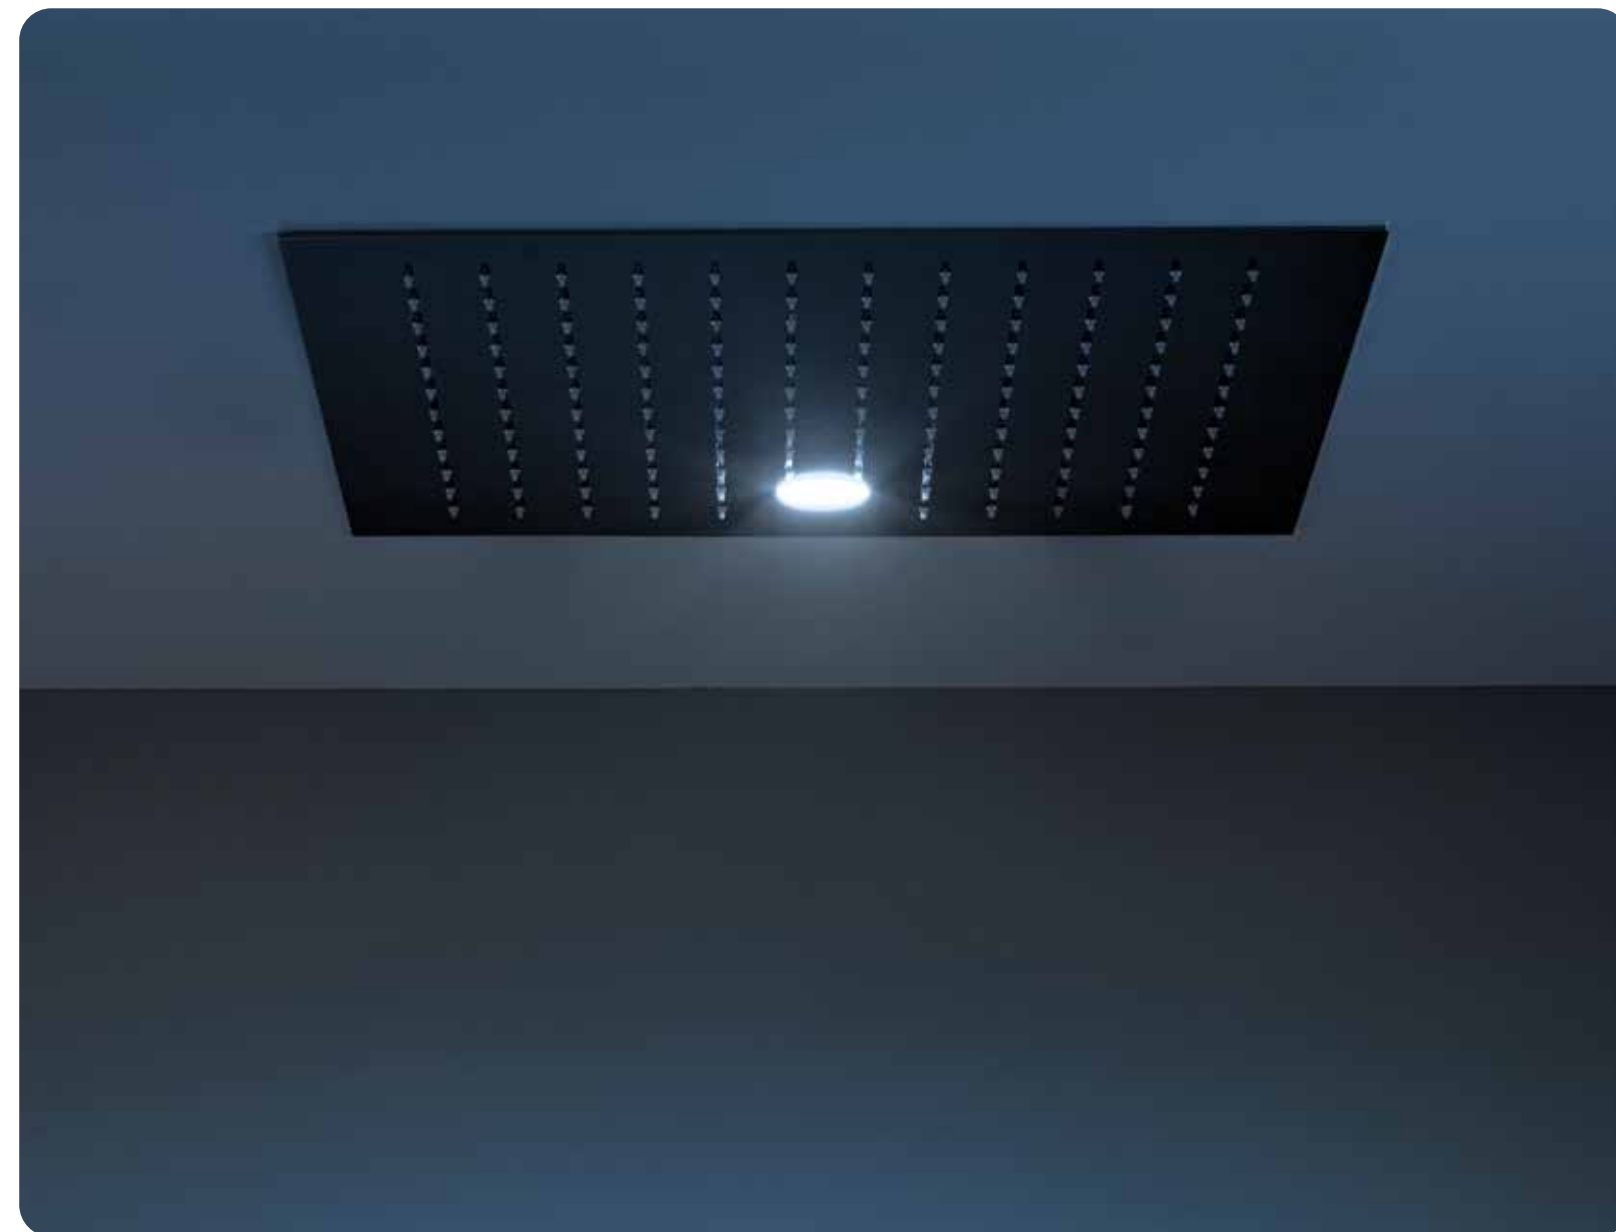

Spring Installation
Showerheads

Sistema di fissaggio a molle

Questo sistema unisce due grandi benefici, la riduzione di 1/3 dei tempi di installazione e l'assenza di viti di tiraggio nella parte estetica del prodotto. Ricavando una semplice sede nel controsoffitto si collega il soffione. Il sistema a molle permette senza l'utilizzo di utensili di fissare il prodotto in pochi secondi

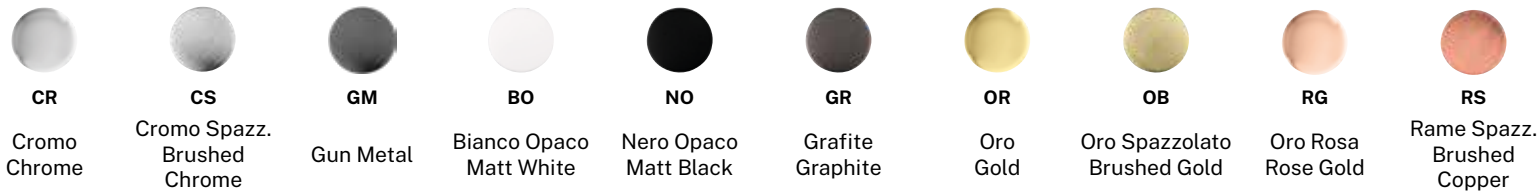

Spring fixing system

By procuring a customised seating in the false ceiling, the spring system of Mariner's showerheads allows for the installation of the items without the need of any other fixing tool. Mounted in a few seconds, this type of spring-clipped installation combines two great benefits, a 1/3 reduction in installation time and the lack of exposed mounting screws in the aesthetic part of the product.

Cucina Kitchen

Kitchen

Una serie di rubinetti funzionali, plasmati da forme minimaliste e razionalità di linee, che vogliono reinterpretare forme antiche in chiave moderna. Frutto di costante ricerca e innovazione, i rubinetti della linea Cucina si adattano a svolgere diverse funzioni, in un gioco complesso di forme e volumi, che donano personalità ed eleganza a qualsiasi cucina.

CUCINA - KITCHEN

Being the result of in-depth research and contemporary trends reinterpretation, our kitchen faucets translate historic shapes in a modern key. This is done by combining sharp and soft lines together congruently. The final result is that of a collection where every component feels functional yet strangely alive, a never-ending game of shapes and volumes that transforms your kitchen into the kingdom of originality.

Condizioni Generali di Vendita

Il presente listino prezzi regola la vendita dei prodotti contrattuali tra MARINER RUBINETTERIE srl ed il Cliente

ORDINI

Gli ordini sono impegnativi per il Cliente e devono essere redatti per iscritto così come ogni modifica, aggiunta o qualsiasi richiesta successiva all'ordine.
Gli ordini del Cliente si intendono accettati da MARINER RUBINETTERIE srl con l'invio delle conferme d'ordine.

CONSEGNA E RESA

La merce è resa franco nostro magazzino, e comunque in conformità con le condizioni riportate sulla conferma d'ordine.
Il termine di consegna ha valore semplicemente informativo e non impegnativo essendo subordinato ad eventuali imprevisti. I casi di forza maggiore quali contingentamenti, scioperi, mancanza di trasporti, ecc. dispensano MARINER RUBINETTERIE dall'obbligo di mantenere i termini di consegna: il Committente non potrà esigere risarcimenti dovuti a danni di qualsiasi natura. Le spedizioni vengono effettuate con il mezzo ritenuto più idoneo sempre che il Cliente non esprima la propria preferenza. La merce viaggia a rischio e pericolo del Committente

PREZZI

I prezzi sono espressi in Euro e si intendono al netto di IVA e sono comprensivi di imballo generico. In qualsiasi momento ed a suo insindacabile giudizio MARINER RUBINETTERIE srl si riserva la facoltà di apportare modifiche al listino prezzi ed alle condizioni generali di vendita, previa comunicazione al Cliente.

PAGAMENTI

Tutti i pagamenti sono da effettuarsi direttamente a MARINER RUBINETTERIE srl sulla base dei termini e delle modalità indicate sulla conferma d'ordine. Per nessun motivo e a nessun titolo il Cliente può differire o sospendere i pagamenti oltre le scadenze pattuite. In caso di mancato pagamento saranno applicati costi ed interessi di mora nella misura stabilita dal D.L. 231/2002-art. (tasso BCE maggiorato di 7 punti percentuali)
Mariner Rubinetterie avrà il diritto di sospendere ogni altra consegna senza necessità di preavvisi, ritenendo annullato, per colpa della ditta acquirente, l'ordine in corso per la parte non ancora consegnata; è fatto salvo il risarcimento dei danni.

IMBALLAGGIO

L'imballaggio viene effettuato con imballi specifici. L'imballaggio standard è compreso nel costo del prodotto. Imballaggi speciali, pallets, gabbie, ecc. saranno addebitati al Committente al costo.

CAMPIONATURE

Le campionature eseguite su esplicita richiesta del Cliente verranno addebitate ad un prezzo concordato tra le parti. Tale prezzo dovrà essere corrisposto dal Cliente all'atto della fornitura della campionatura.

MAGGIORAZIONE PER PRODOTTI FUORI CATALOGO

In caso di richiesta da parte del Cliente di una lavorazione personalizzata della merce sarà applicata una maggiorazione rispetto al prezzo del listino da concordare alla stipulazione dell'ordine e verrà definito un lotto minimo di acquisto.

RECLAMI

Al momento del ricevimento della merce il Cliente è tenuto a:
1) Verificare la presenza e l'integrità di tutti i prodotti previsti nell'ordine;
2) In caso di imballo rotto o prodotto difettoso informare per iscritto entro 48 ore il nostro Servizio Clienti.
Non si accettano reclami di alcun genere trascorsi 8 giorni dal ricevimento della merce. Eventuali reclami dovranno essere comunicati a mezzo email e/o PEC entro tale termine.

RESI

Nessun reso merce potrà essere effettuato senza previa autorizzazione di MARINER RUBINETTERIE srl. I resi dovranno essere sempre accompagnati da regolare DDT e provvisti di etichetta originale di identificazione per la spedizione unitamente ad un rapporto che contenga ogni dato necessario all'identificazione della merce, la data ed il numero della fattura o conferma d'ordine, ed il difetto riscontrato. La presentazione del reclamo non legittima il Cliente a sospendere o ritardare i pagamenti pattuiti.

MODIFICHE PRODUTTIVE

Le immagini contenute nel nostro catalogo sono orientative. È data facoltà a MARINER RUBINETTERIE srl di apportare a suo insindacabile giudizio tutte le modifiche o migliorie tecnico commerciali che si rendessero necessarie.

GARANZIE

Tutti i prodotti vengono sottoposti ad accurati controlli durante ciascuna fase del processo produttivo e sono garantiti a norma di legge europea.
Sono coperti dalla garanzia di 5 anni i seguenti casi:
• Difetti di fusione, di porosità e di cromatura;
• La riparazione o la sostituzione di prodotti con difetti di fabbricazione riconosciuti dall'ufficio tecnico di Mariner Rubinetterie srl
Sono coperti dalla garanzia di 2 anni tutti gli organi meccanici.
La garanzia decade nel caso in cui si verifichino le seguenti situazioni:
• Errori di installazione e messa in opera del prodotto
• Deterioramento delle superfici cromate dovute all'uso di prodotti per la pulizia contenenti acidi o sostanze abrasive
• Deterioramento delle superfici con finiture diverse da quelle cromate. La loro durata è infatti subordinata alla cura e alla delicatezza dell'uso da parte dell'utente.
• Deterioramento della rubinetteria imputabile ad un'installazione effettuata in modo non corretto
• Utilizzo del prodotto in modo non corretto
• Riparazioni e manutenzioni effettuate in modo non idoneo e senza preventiva autorizzazione dell'azienda.

General Sales Conditions

This price list regulates the sale of contractual products between MARINER RUBINETTERIE srl and the customer

ORDERS

Orders are binding on the Customer and must be drawn up in writing as well as any modification, addition or any request subsequent to the order.
Customer orders are considered accepted by MARINER RUBINETTERIE srl by sending order confirmations.

DELIVERY TERMS

The goods is intended EX WORKS delivery terms, or in any case in accordance with the conditions indicated on the order confirmation.
The delivery time is simply informative and not binding since it is subject to any unexpected events. Cases of force majeure such as quotas, strikes, lack of transport, etc. MARINER RUBINETTERIE exempt from the obligation to maintain the delivery terms: the Customer will not be able to claim compensation for damages of any kind. Shipments are made with the means deemed most suitable provided that the customer does not express his preference. The goods travel at the risk and danger of the buyer

PRICES

The prices are expressed in Euros, VAT not included, generic packaging included. At any time and at its sole discretion MARINER RUBINETTERIE srl reserves the right to make changes to the price list and general conditions of sale, subject to communication to the Customer.

PAYMENTS

All payments are to be made directly to MARINER RUBINETTERIE srl on the basis of the terms and conditions indicated on the order confirmation. For no reason and for no title the Customer can defer or suspend payments beyond the agreed deadlines. In case of non-payment, default costs and interest will be applied to the extent established by Legislative Decree 231/2002-art. (ECB rate increased by 7 percentage points)
Mariner Rubinetterie will have the right to suspend any other delivery without the need for advance notice, considering that the order in progress for the part not yet delivered has been cancelled due to the fault of the purchasing company; compensation for damages is reserved.

PACKAGING

The packaging is carried out with specific packaging. Standard packaging is included in the cost of the product. Special packaging, pallets, cages, etc. will be charged to the Customer at cost.

SAMPLES

The samples made on explicit request of the customer will be charged at a price agreed between the parties. This price must be paid by the customer when the sampling is provided.

INCREASE FOR PRODUCTS OUT OF CATALOGUE

In the event of a request from the Customer for a personalized processing of the goods, a price increase will be applied to the quotation of the price list : this is to be agreed upon the order confirmation and a minimum purchase lot will be defined.

COMPLAINTS

Upon receipt of the goods, the Customer is required to:
1) Check the presence and integrity of all the products included in the order;
2) In case of broken packaging or defective product, inform our Customer Service in writing within 48 hours.
Complaints of any kind are not accepted after 8 days from the receipt of the goods. Any complaints must be communicated by email and / or certified email within this deadline.

RETURNS

No goods can be returned without prior authorization from MARINER RUBINETTERIE srl. Returns must always be accompanied by regular DDT and provided with an original identification label for shipping together with a report that contains all data necessary to identify the goods, the date and number of the invoice or order confirmation, and the defect found. The presentation of the complaint does not legitimize the Customer to suspend or delay the agreed payments.

PRODUCTION CHANGES

The images contained in our catalogue are indicative. MARINER RUBINETTERIE srl is given the right to make any technical or commercial modifications or improvements that may be necessary at its sole discretion.

GUARANTEES

All products are subjected to careful controls during each phase of the production process and are guaranteed in accordance with European law. The following cases are covered by the above guarantee:
Casting, porosity and chromium plating defects;
The repair or replacement of products with manufacturing defects recognized by the technical office of MARINER RUBINETTERIE srl
They are covered by the 5-year guarantee in the following cases:
• Casting, porosity and chrome defects.
• The repair or replacement of products for manufacturing defects recognized by the technical office of Mariner Rubinetterie srl
All mechanical parts are covered by the 2-year guarantee.
The guarantee lapses if the following situations occur:
• Product installation and commissioning errors
• Deterioration of the chrome surfaces due to the use of cleaning products containing acids or abrasive substances
• Deterioration of surfaces with finishes other than chrome. Their duration is in fact subject to the care and delicacy of use by the user.
• Deterioration of the taps attributable to an incorrectly installed installation
• Incorrect use of the product
• Repairs and maintenance carried out in an unsuitable way and without prior authorization from the company.
